Experience
Projects

Portfolio Website: Web dev. 06/20—07/20
Designed and developmed my portfolio website from scratch. I was responsible for the HTML, CSS and JS.

Perfect Properties: UI design 03/20—06/20
Ideated, and designed a real estate app for new buyers. Crafted a modern, user friendly, and beautiful interface along with interactions and animations.

Nalu: UX design 05/19—02/20
Researched, ideated, and designed a weather forecasting application for water sports. Conducted thorough user research, prototypes and polished the visual design to create a user-friendly application.
